

PO Box 742 Culpeper, VA. 22701 540-829-6947

Attention Habitat Volunteers,

We are starting a home refurbish program call "Hammers of Hope" in which we will make minor repairs to existing homes. We plan accomplish several projects per year depending on sponsorships and other activities such as building new homes. The program guidelines will be listed on our website soon as well as the application.

We are excited to schedule our first project at Arlene Ellis home located at 23288 Slaughter Mill Road in Culpeper on Saturday, June 26th starting at 8AM. We will be hanging and finishing drywall on a ceiling of one room. We are looking for 8 – 10 volunteers that have experience with hanging and finishing drywall. We will meet at the location. Please call Darryl Lam (540-825-6613) or Jeff Muzzy (540-825-0515) or send an email thru our website if you can help.

Phase two of this project will be replacing a floor and rotted floor joist which will be scheduled at a later date.

In other news, we are closing in on a partner family for a new home build in Griffinsburg. Hopefully we will be breaking ground this summer.... We will let you know ☺.

Thanks ...

Jeff Montag
